Engine Power and Efficiency Improvement Menu

Powered by Forte Performance Systems

Fuel System Cleaner \$18

Add a can to your next full tank of gasoline
Improve fuel economy, clean and improves spray patterns of fuel injectors,
Lubricates fuel system components, and reduces condensation in fuel tank.

Premium ULS Diesel Booster \$29

Add 250 ml to you next full tank of diesel
Improve fuel economy, clean and lubricate diesel injection components,
Reduce carbon build up, and lower tailpipe emissions.

Pre Lube Service \$43*

Specialized service performed by our technicians
Strongly recommended for any European car with more than 60,000 km.
Helps combat the negative effects of the extended oil change interval
favoured by European auto manufacturers.

Carbon Blaster/ Combustion Chamber Cleaner* \$299**

Specialized service performed by our technicians
Removes carbon deposits from cylinder head and combustion chamber,
Can help restore engine power, reduce tailpipe emissions and improve fuel efficiency.
Especially effective on older engines or engines with more than 120,000 km.

Diesel Induction and Exhaust Cleaner \$249

Specialized service performed by our technicians
Tried and tested on fleets of big rig commercial trucks, safely cleans and conditions both the intake and exhaust
side of all diesel engines. Helps to make engines burn cleaner and more efficiently.

Walnut Blast starting at \$299

Specialized service performed by our technicians
Highly effective service for cleaning and removing carbon deposits. A major consideration for any direct injection
engine with over 100,000 km. Eradicates stubborn carbon deposits when liquid based services and treatments
prove ineffective. Returns engines to their original glory.

*added to oil change cost

**requires oil change
